

F-Splice

F81BCP Series (Long)

Overview

Antronix's unique F-splice features our patented auto-seizing CamPort[®] for the most reliable cable connection available today. The brass CamPort[®] provides intermittent free transmission path essential for advanced multimedia applications. The F-splice is made of high quality machined brass and nickel-plated to resist corrosion.

Specifications

Insertion Loss

Freq. (MHz)	Maximum (dB)	Typical (dB)
5-15	0.10	0.05
15-40	0.10	0.05
40-200	0.22	0.10
200-550	0.25	0.10
550-750	0.30	0.15
750-1000	0.30	0.20

Return Loss

Freq. (MHz)	Minimum (dB)	Typical (dB)
5-15	25	40
15-40	25	40
40-200	25	30
200-550	22	25
550-750	22	25
750-1000	22	25
